

A MISTAKEN IDEA

There are some people who still resort to drugged pills or alcoholic syrups to overcome colds, nervousness or general debility, and who know that the pure, unadulterated nourishment in Scott's Emulsion is eminently better, but refrain from taking it because they fear it may lead to excessive fat or obesity.

This is a mistaken idea, because Scott's Emulsion first strengthens the body before making flesh. Its blood-forming properties aid nature to throw off sickness by building health from its very source, and flesh is formed only by its continued use. Avoid alcoholic substitutes for SCOTT'S

Vermont is having a very general attack of a spring fever of a most commendable kind—a burning desire to clean up. All over the state from city to small town the people will devote the next two weeks to a cleaning which promises to be neither spasmodic nor trifling. The result will be immeasurable in its effect on health and prevention of fire. Incidentally, beauty means added value in money to a community as will someday be realized.—Advance.

The dastardly shooting of Frank L. Polk, corporation counsel for New York, has been somewhat overlooked in the rush of great international events, but it is pleasing to note that Mr. Polk has practically recovered from the effect of the bullet which was intended for his chief, Mayor Mitchell, and that he takes the matter so calmly that he has received the bullet set in the form of a watch charm and was able to make light remarks over the presentation. That which is equally pleasing is that the shooting has been fastened on no one else, individual or cliques, besides the doddering man who imagined he had a righteous grievance against the chief executive of New York city.—Barre Times.

In the current issue of Farm and Fireside J. M. Taylor writes an article entitled "College Students for Summer Help." The following extract from the article tells why many college students like to work on farms:

"Now is the time for us to secure men who are not only willing but eager to work on farms. After nine months of a steady diet of indoor brain work these men regard any kind of physical work in the open as a pleasant vacation. They jump at the chance to do farm work or, as the entire curriculum of farm labor is expressed in their vernacular, to 'pitch hay.' First and foremost the physical labor appeals to them, for it gives them an opportunity to harden their muscles. Second, the wages, though not princely, are as high as they could expect to draw at many another branch of labor, and they have no board to pay. Through some strange psychological quirk this fact that he does not have to pay board appeals remarkably to the average student, perhaps because board forms his heaviest drain during the year."

Addison County Cases in Supreme Court.

The two Addison county cases which are to be argued at the May term of supreme court involve questions of large importance. The case entitled in re will of Columbus Smith, Anna M. Perry et al appeal from the decision in the trial of this case before a jury at the June, 1913, term of court, in which Judge W. H. Taylor of Hardwick, then presiding, took the case from the jury, deciding that the instrument offered was the last will and testament of Columbus Smith. The amount involved is now in the neighborhood of \$350,000.

The other case is docketed as the Middlebury Electric company et al vs. Charles S. Murkland, et al. It is a bill in chancery with an injunction. This case has not yet been formally heard by the court of chancery but goes direct to supreme court for its interpretation of disputed questions of law. The matter involves water rights on Otter river in Middlebury village.

Given Shower Party.

Miss Florence M. Wheelock of East State street, who is soon to be married to Rawson C. Myrick of Bridport, deputy secretary of State, was given a miscellaneous shower Thursday evening by her girl friends in the home of Miss Virginia Towle. Miss Wheelock accepted Miss Towle's invitation to pass the evening at her home and on her arrival was greeted by 20 of her friends. The interior of the house was charmingly decorated for the occasion. Included in the evening's entertainment were music and bridge whist, five tables being in play. Delicious refreshments were served. The guest of honor was presented beautiful gifts by her friends and also received their best wishes for future happiness.—Montpelier Journal.

THE WAY TO BE HAPPY.

SELECTED

Some think it a hardship to work for their bread. Although for our good it was meant; But those who don't work have no right to be fed, And the idle are never content.

An honest employment brings pleasure and gain. And makes us our troubles forget; For those who work hard have no time to complain, And 'tis better to labor than fret.

And if they had riches, they could not procure A happy and peaceable mind; Rich people have trouble, as well as the poor, Although of a different kind.

It signifies not what our stations have been, Nor whether we're little or great; For happiness lies in the temper within, And not in the outward estate.

We only need labor as hard as we can, For all that our bodies may need; Still doing our duty to God and to man, And we shall be happy indeed.

WEALTH OF HAIR

Parisian Sage Makes Thin Lifeless Hair Soft and Abundant.

Beautiful hair, thick, soft, fluffy, lustrous, and free from dandruff, is one of woman's greatest charms, yet so many have streaked, thin and lifeless hair and think there is no remedy. Pretty hair is largely a matter of care.

Frequent applications of Parisian Sage will rub into the scalp is all that is needed—it acts like magic. Try it to night—you will really be surprised with the result. Not only will the hair become soft, fluffy, radiant with life and really doubly beautiful, but all dandruff disappears, falling hair and itching scalp cease—your head feels fine.

All Druggists sell a large bottle of Parisian Sage for fifty cents. Get it from W. H. Sheldon he will refund the money if you are not satisfied. adv.

Minutes Mean Dollars IN TREATING ANIMALS

Doubtless you know the danger of delayed treatment of colic and other diseases. You also realize that wrongly applied remedies are often worse than no treatment at all. In other words, not to diagnose a disease accurately may prove fatal. Every owner should be able to recognize an ailment and give correct treatment at the first symptoms. Prompt action is the great secret of treating horses.

Of course proper treatment is always necessary. That is just how Humphreys' 250 page Veterinary Manual will prove so valuable to you. It is by F. Humphreys, M. D., V. S., and teaches how to diagnose and give proper treatment. This book will save you hundreds of dollars and costs you nothing. It will be sent absolutely free on request to any farmer in order to introduce Humphreys' Veterinary Remedies. Remember, it is absolutely free. You do not have to order any remedy to secure the book. Address, Humphreys' Homeopathic Medicine Company, 136 William Street, New York City. This is a splendid opportunity to obtain a veterinary treatise that you should have in your library. As a reference work you will find it invaluable. To have it in the time of need will be worth many dollars, whereas it will cost you but a post card for writing for it now.
